Start

Hygiene Heroes Snakes and Ladders

Rules for Snakes and Ladders

Each player/team, starts with a token in the 'START' circle. Players/teams take turns to roll a single die and move the token by the number shown on the die.

If the player/team lands on the bottom of a ladder, the player/team can move up the ladder to the circle at the top.

If the player/team lands on a circle with the snake's head in it, they must slide down the snake to the circle where the snake's tail is.

A player/team who rolls a 6 with their roll of a die may, after moving, immediately take another turn; otherwise, the play passes to the next player in turn.
